

**DigaNET Awarded Contract with Department of Homeland Security,
FOR IMMEDIATE RELEASE**

3-10-2009 Denver, CO

DigaNET, Inc., a Colorado-based Security Systems Integration firm announces a contract with the Department of Homeland Security to supply the digital video recording (DVR) and surveillance equipment. DigaNET is proud to be a part of efforts to secure the perimeters and sovereignty of our great Nation. DigaNET is one of the first security companies in the nation to market DVR's as the digital replacement for linear tape based VCRs'. DigaNET focuses on digital solutions for security and offer a cornucopia of applications designed to use the power of the PC to assist security professionals. Facial recognition, Intelligent Surveillance Information Systems (ISIS) and integrated access control are among the offerings.

DigaNET VP of Sales, Anthony Ibarra, states, "When we first began touting DVR's 10 years ago, capture frame rates and resolution were fairly low. Now we have DVR's that record video and audio in near DVD quality at affordable prices, using unique DigaNET HDVAR Advanced Hybrid MPEG 4 H.264 compression."

DigaNET provides the same hi-tech solutions to a variety of Federal, State and Local government agencies – Department of State, Bureau of Diplomatic Security, Department of Justice, Federal Bureau of Prisons, Colorado and Wyoming State Capitols, City and County of Denver and the Colorado Convention Center.
